PB-GE-FS2 Prototyping Board, full size, style 2 with IDC support

Overview

This is a variant of our standard full size prototype board and has two notable differences. The connection strips of 5 are in horizontal rows and there is an area on one side to mount IDC Connectors (Box headers).

Specifications

Size:	5" x 3.7" (127 x 93.98mm)
Mounting Holes:	6 x 0.125" (3.175mm)
Component Holes:	1674 x 35mil (0.9mm)
Component Hole Pitch:	0.1" (2.54mm)
Board Material:	FR4
Pad Treatment:	Immersion Tin
Copper Thickness:	1oz per sqr foot
Track Width:	60 mil
